

Country: Canada

Location: Charlottetown, PEI / St. John's, NL

Job Title: Producer / Project Manager

Job Description:

Other Ocean is looking for a creative, talented and driven Project Manager to help shape our future projects as well making sure we meet budget, quality and timeline expectations. To be considered for a position in our production department, applicants should be able to demonstrate their leadership and management talents. Professional game management and production experience are preferred.

Applicants must:

- Have a solid understanding of the software development cycle.
- Be able to provide clear project status reports to key stakeholders.
- Have the ability to communicate project goals to the development team and guide them to execution.
- Be able to create development schedules, maintain strict deadlines and communicate risks to development and its mitigation steps.
- Have experience creating and maintaining project budgets
- Have excellent verbal and written communication.
- Have experience with management methodologies such as Agile and Waterfall.
- Have experience using software project management tools.
- Have experience having shipped previous titles/projects through various first-party channels.
- Be able to build relationships with development partners.
- Be able to multitask under pressure.

Other desirable skills include:

- Familiarity with the entire Microsoft Office suite or similar software (Google Drive suite)
- Understanding of development tools such as game engines (Unity3D, Unreal Engine, etc...)
- Familiarity with other development disciplines such as Art, Design, Programming and QA.
- Experience with Jira and Agile suite would be an asset
- Experience in dealing with Licenced IP

Applicants must have a minimum of 3 years of relevant project management experience.
